DAILY

Standing items: Kava Gummy 1 gummy a day. Taken outside the rotation, never stacked at full servings with a kratom dose.

RULES

- **Servings:** 3 caps Day · 3 caps Night · 2–3 caps Late (only if needed) · every dose at least 6 hrs from the last.
- **Standing items:** extracts, gummies and kava are dosed by serving, not by strain, so they never rotate. Never stack full servings of two things at once.
- **Guarantees:** the reserve strain exactly as many days as selected, never back to back · no strain on consecutive days in the same column · no red repeats within 24 hrs in any direction · nothing twice in one day.
- **If effects feel dulled:** regenerate toward the other end of the spectrum or take a break day — never dose up.

Personal reference · not medical advice · consult a healthcare provider with any medication interactions · strain descriptions are Super Speciosa's own product copy
